X DESIGN SERIES

AB, ABS, ABB, ABSOL

CTR XA1

The XA-1 grip is made of glass fiber-reinforced Polypropylene conjoined with Elastomer, and is superior to ABS handle in its Anti-Aceton, Anti-Acid, and Anti-shock properties. The physical features of the XA-1 make it practical for construction and painting jobs. Well-known and established auto lock model with an ultra sharp black blade.

Suggested Uses: Cutting through leather, wallpaper, plastic films, construction and art & craft applications.

LB, LBB, LBSOL

CTR L5AL

Heavy duty cutter with ComfortGrip handle, automatic blade lock and built-in hard metal pick for multi-purpose applications.

Suggested Uses: cutting leather, rubber, cardboard, rope, paper, carpet, fiberglass, acetates, linoleum and plastic.

LB, LBB, LBSOL

CTR L5

OLFA X design ComfortGrip series - Heavy duty cutter Sure grip handle made of elastomer for Acid and Aceton (oil) resistant. Built-in hard metal pick for multi-purpose applications.

Suggested Uses: Multipurpose applications such as DIY projects, construction and industrial applications.

HB, HBB

25 mm

CTR XH1

Multi purpose cutter with the unique Comfort Grip that enhances safety and gives users perfect control of handle. Combines tremendous power and accurate control to ensure safe, smooth and effective cutting even on tough materials. Sure Grip enables Maximum cutting force. 25mm blade.

Suggested Uses:

Perfect for cutting drywall, roofing, leather, rubber and plywood.

SKB, RSKB-2

CTR UTC1

The UTC-1 Auto-Lock Retractable Utility Knife is a revolutionary new cutter designed for quick and easy blade replacement with no tools required! This cutter features a heavy gauge stainless steel blade channel, the OLFA Handsaver cushion grip handle designed for comfort and optimal right or left handed use, secure blade design to prevent rattling and ensure safety, and a five position retractable blade for application specific requirements. The handle is Guaranteed forever!

Suggested Uses: For use in applications such as drywall installation, painting, roofing, flooring, electrical, sign making, window tinting, maintenance, paper hangers and mechanics.

EXTRA HEAVY DUTY

CTR H1

Extra heavy duty sure grip cutter features a ratchet wheel blade lock to prevent slipping, rubber grip insert for positive handle control and a rope loop. Perfect for cutting through difficult materials. 25mm blade.

Suggested Uses: Cutting drywall, roofing, leather, rubber, plywood.

CTR L1

The original heavy duty cutter. Contoured handle includes a stainless steel blade channel and ratchet wheel blade locking mechanism. Guaranteed forever.

Suggested Uses: Cutting wallpaper, leather, rope, paper and cardboard.

CTR BNL

Multi purpose cutter with a unique designed handle to fit the hand comfortably.

Suggested Uses: Cutting paper, cardboard, roofing, drywall, vinyl and acetates.

CTR XL2

Extra length heavy-duty cutter for jobs requiring extra "reach". Equipped with an anti-slip rubber grip.

Suggested Uses: Cutting gaskets out of windshields & for industrial applications.

CTR CL

Carton cutter with an adjustable depth gauge and built-in staple remover.

Suggested Uses: Cutting cardboard, box opening, plaster board & foam board.

CTR HSW-1

The blade-retractable saw HSW-1 features the classic H-1 frame: wheel blade lock and handle with easy-to-hold large cushion rubber. Electroless-nickel-plated full-fledged toothing blade HSWB-1 delivers the ultimate combination of extra-toughness and extra-sharpness. Compact when carried about, with full-fledged usability.

Suggested Uses: DIY project, construction, industrial, art & craft and more.

CTR CS-5 : Pointed Saw Blade + All-round Snap-off Blade in 1 Handle

A combination of Keyhole Saw Blade and 12.5mm Snap-Off Blade is all needed. The saw blade is bi-directional, works as a pull-saw as well as a push-saw. Its sharp-pointed tip drills a hole in a board to start cutting. The hard-to-bend 12.5mm-wide x 0.45mm thick snap-off blade cuts tough materials stronger than people expect from its appearance.

Suggested Uses: For electrical insulation work, construction site, DIY project

ECO GREEN

CTR ES1 - with All-Steel Blade Guide

Auto-Lock-featured standard-duty model with a pocket clip/blade snapper. For both right- and left-handed uses. Handle and all plastic parts made from 100% recycled materials. Easy disassembly for next recycling. The ES-1 is a Japanese Eco-marked product authorized by JEA, and conforms to the Japanese law on promoting green purchasing.

Suggested Uses: All-around: cuts paper, wallpaper, plastic film, art & craft applications, and more.

CTR ES-1

24 Pce Assorted Colours in Bucket

MIGHTY TOUGH

CTR MT1 - Medium Size Tough Knife

Always have one medium-sized cutter ready! Medium size cutter with a 12.5mm wide x 0.45mm-thick blade. For both left and right-handed users. Featuring Auto-Lock system and a pocket clip and blade snapper. The main body is made of 100% recycled resin. With the brand-new MT-1, cutting through cardboard will be easy and safe.

Suggested Uses: General cutting: paper, cardboard, plastic, shrink-wrap.

SAFE BLADE SNAP-OFF SERIES

CTR DA1 Built-in Safe Blade Snap-off & Disposal

Auto-Lock and ABS plastic handle featured standard-duty model with a detachable blade disposal case that users easily pop off for use. Up to approximately 26 used blade segments, whole 2 AB blades, can be stored in its disposal case before a user disposes them in bulk. For both right- and left-handed users. Cut, snap and dispose, all under lock and key, with one compact cutter!

Suggested Uses: Cutting through leather, wallpaper, plastic film, art & craft applications, and more!

CTR DL1 Built-in Safe Blade Snap-off & Disposal

Auto-Lock and ABS plastic handle featured heavy-duty cutter with a built-in detachable light-weight blade snapper/disposal case on its back. Up to 16 used blade segments, whole 2 LB blades, can be stored in the disposal case. Dispose used segments in bulk when case becomes full.

Suggested Uses: DIY projects, construction, industrial applications, warehousing and more.

STAINLESS SILVER SERIES

STAINLESS
STEEL
BLADE

STAINLESS STEEL HOLDER

BLADE AB, ABS, ABB, ABSOL

CTR SVR1 - Silver

Also known as the "OLFA Silver", the SVR-1 is an all stainless steel model. Perfect for use in moist environments (wallpapering, window tinting etc) where rusting is a concern. The ultra slim design of this cutter makes it a popular choice with professional tradespeople. Features a slide lock and pocket clip/blade snapper. Guaranteed forever!

Suggested Uses: Cutting through wallpaper, window films, art and craft applications and caulking.

STAINLESS STEEL HOLDER

BLADE SAB

CTR SAC1 - Graphic Cutter

With 30 degree angled blade for graphic arts. Includes a pocket clip and blade snapper.

Suggested uses: Cutting cardboard, wallpaper, arts and crafts and scrap booking applications.

BLACK STEEL SERIES

BLADE AB, ABS, ABB, ABSOL

CTR180B - 180 Black

The modern version of the original cutter developed by OLFA. This value priced cutter is perfect for general home and office use for light duty cutting jobs. Features a slide lock, pocket clip and built-in blade snapper. With metal handle. Guaranteed forever!

Suggested Uses: General cutting, paper, cardboard and shrinkwrap.

CTR180-BT/36

36 pcs. (180 Black) in a plastic bucket

BLADE AB, ABS, ABB, ABSOL

CTR S

Compact cutter with metal handle. Comes with a pocket clip and blade snapper.

Suggested Uses: General cutting, paper, cardboard, shrinkwrap etc.

LIGHT WEIGHT

BLADE LB, LBB, SWB, LBSOL

CTR SL1

Multi purpose cutter with a unique designed handle to fit the hand comfortably. With tractor blade lock.

Suggested Uses: Cutting wallpaper, paper, cardboard etc.

THE STANDARD

BLADE AB, ABS, ABB, ABSOL

CTR300

Features include a stainless steel blade channel, ABS high impact plastic handle and a ratchet wheel blade locking mechanism. The "300" provides more leverage for more demanding and tougher cutting projects.

Suggested Uses: Cutting wallpaper, plastic films, paper, cardboard, art & craft and **scrap booking** applications.

BLADE AB, ABS, ABB, SAB, DKB

CTR A1

The longtime seller "A" has been fully remodeled and now called "A-1". The thin-model cutter, featuring a full-scale pocket-clip/blade snapper and carbon-like engraving on handle, fits hands and pockets perfectly. Thanks to its special fine control Auto-Lock slider, the sharp angle SAB/DKB blades are its official spare blades along with the standard AB/ABB blades.

For both left and right handed users.

Suggested Uses: Cutting through leather, wallpaper, plastic film, and more. Art & craft applications.

BLADE AB, ABS, ABB, ABSOL

CTR A3 - Two Way Cutter

Graphic knife with multiple blade re-application system.

Suggested Uses: Cutting through wallpaper, plastic films, art & craft and scrap booking applications.

BLADE AB, ABS, ABB, ABSOL

CTR A5

Featuring a one-way locking system, the A5 is an evolved auto lock model with an ultra sharp black blade.

Suggested Uses: Cutting through wallpaper, plastic film and arts & craft applications.

BLADE AB, ABS, ABB, ABSOL

CTR PA2 - Pro-Load Multi-blade Cutter

Multi-blade auto-loading cutter with automatic blade lock mechanism. A maximum of 5 ultra sharp black blades can be stored in the handle.

Suggested Uses: Cutting through wallpaper, window films and art & craft applications.

SAFETY KNIVES/Box Cutters

SKB-2, RSKB-2

RSKB-2

SKB-7

SKB-8

SKB-2, HOB-2, RSKB-2

SKB-10

CTR SK4

Revolutionary spring-retractable safety cutter features right or left handed operation, powerful return spring, stainless steel blade channel and ergonomic grip. Eliminates injuries as the blade remains extended while cutting and automatically retracts the instant the blade loses contact with the cutting surface. No tools required for blade replacement.

Suggested Uses: Cutting corrugate, paper, rubber, leather and foam.

CTR SK6

The best Safety Knife featuring an auto-guard system and round-tip blade that helps to reduce accidents. Ergonomically designed handle and easy blade changing help to prevent injury and hand and wrist fatigue. Accommodates both right- and left-handed users. No tools required for blade replacement.

Suggested Uses: Cutting corrugate boxes, paper, cartons, packaging material.

CTR SK7

Auto-retracting blade Safety Knife features small but secure grip fitting even a woman's hand. Accommodates both right and left-handed users. No tools required for blade replacement. The SK-7 is an ECO MARK product accredited by the Japan Environmental Ass.

Suggested Uses: Cutting corrugate boxes, paper, cartons and packaging material.

CTR SK8

The biggest difference between the SK-8 and other safety knives is that the blade automatically retracts after cutting or when it loses contact with the material being cut even if the blade slider is engaged. Accommodates both right and left-handed users. Durable Aluminium Die-Casting Head. ComfortGrip. No tools required for blade replacement.

Suggested Uses: Cutting corrugate boxes, cartons and packaging material.

CTR SK9

Auto-retracting blade Safety Knife featuring thick steel blade, built-in metal pick and gently curved body. Its solid metal pick works as a package slitter and a carton tucker. Cuts down injuries while cutting work. For both right- and left-handed users. No tools required for blade replacement.

Suggested Uses: Cutting corrugate boxes, cartons, packaging material.

CTR SK10 - Shrink Cutter

Insert the beak-shaped guide for a "scoop-cut" to cut down shrink-wraps! The SK-10 is designed to avoid unintended cuts. Acetone and impact resistant handle. One reversible single-edged carbon-tool-steel-made SKB-10 blade safely provides 4 cutting points, superior durability and sharpness. No extra tools required to replace blades.

Suggested Uses: Cutting shrink-wraps, most plastic straps and cushioning materials.

SCISSORS

STAINLESS
STEEL
BLADE

SCS-1

The OLFA stainless steel scissors (5" overall length) are rapidly growing in popularity in both consumer and industrial applications. Extremely high quality stainless steel blades meet perfectly for precision cutting. The material being cut is held in place by one blade which is serrated, providing positive control.

Perfect for rag flannel quilting!

Suggested Uses: Ideal for use on such varied materials as paper, fabrics, plastic, rubber, leather and aircraft composites.

STAINLESS
STEEL
BLADE

SCS-2

The OLFA stainless steel scissors (7" overall length) are rapidly growing in popularity in both consumer and industrial applications. Extremely high quality stainless steel blades meet perfectly for precision cutting. The material being cut is held in place by one blade which is serrated, providing positive control.

Perfect for rag flannel quilting!

Suggested Uses: Ideal for use on such varied material as paper, fabrics, plastic, rubber, leather and aircraft composites.

STEEL
BLADE

SCS-3

The OLFA stainless steel scissors (7" overall length) are rapidly growing in popularity in both consumer and industrial applications. Extremely high quality stainless steel blades meet perfectly for precision cutting, and the material being cut is held in place by one blade which is serrated, providing positive control.

Perfect for rag flannel quilting!

Suggested Uses: Ideal for general cutting.

STAINLESS
STEEL
BLADE

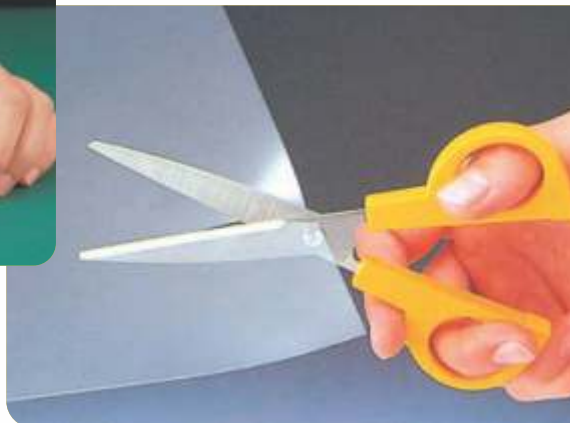

SCS-4

The OLFA stainless steel Applique Scissors (5" overall length) are rapidly growing in popularity in both consumer and industrial applications. Extremely high quality stainless steel blades meet perfectly for precision cutting, and the material being cut is held in place by one blade which is serrated, providing positive control.

Perfect for rag flannel quilting!

Suggested Uses: Ideal for general cutting and sewing applications.

UTILITY MODELS

HOB-1

CTR HOK1

Heavy duty hook cutter with a carbon tool steel blade.

Suggested Uses: Perfect for cutting shrink wrap and nylon straps.

CKB2

STAINLESS STEEL BLADE

CTR CK2 - Stainless Heavy Duty

Heavy-duty craft knife, featuring a specially designed stainless steel blade for wood carving and hobby craft. Stainless steel handle.

Suggested Uses: For hobby craft work, outdoor and camping use.

RB45

CTR 45C

Equipped with a 45mm rotary blade for cutting linoleum and carpet. Can be used in industrial applications.

Suggested Uses: Perfect for cutting linoleum, carpet, shrink wrap and nylon straps.

PB450

CTR PC-S - Plastic Cutter Small

Standard-duty plastic/laminate cutter, designed to produce a fine score line to precisely break plastics, acrylic and laminates. Features built-in room for spare blades and blade retractable function. 2 spare blades in handle with shipment.

Suggested Uses: Cutting plastics and laminates for both construction and industrial applications.

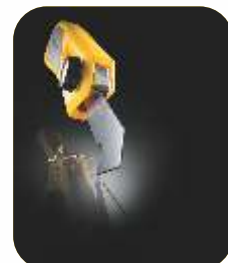

PB800

CTR PCL - Plastic Cutter Large

Heavy-duty plastic/laminate cutter, designed to produce a fine score line to precisely break plastics, acrylic and laminates. Features built-in room for spare blades, and blade retractable function. 2 spare blades in handle with shipment.

Suggested Uses: Cutting plastics and laminates for both construction and industrial applications.

CTR OL-PCH

Heavy-Duty Cutter designed with an extended blade channel for blade support and built-in carpet tucker.

Suggested Uses: Cutting carpet, linoleum, ceiling tiles.

SCRAPERS

OLF SCRL

Sharp edged tool (scraper) featuring a 60mm width stainless steel blade. Disposable blade type.

Suggested Uses: Floor scraping, wall and glass panel cleaning. Designed for the wallcovering, floorcovering and upholstery market.

OLF SCRS

Sharp edged tool (scraper) featuring a 25mm width stainless steel blade. Disposable blade type.

Suggested Uses: Floor scraping, wall and glass panel cleaning. Designed for the wallcovering, floorcovering and upholstery market.

OLF SCR BTC1 "Japanese Leather Knife"

Featuring the sharp edged blade, the BTC-1 provides wide variety usages such as Cutting, Scraping, Shaving and even Slicing. Also the BTC-1 shows excellent performance for cutting leather and resin sheet.

Suggested Uses: Besides wallcovering, floorcovering and upholstery market, it is suitable for leather crafting.

OLF SCR T25 "Iron Claw"

Featuring the "flexible" blade, the T-25 provides the best performance for both pin-pointed and wide-ranged scraping as if it were your own claw! The blade TB-25 has four different edges for diverse scraping work. 6 blades stored in the handle. The safety blade cover can also work as a soft scraper edge.

Suggested Uses: Floor scraping and cleaning walls and glass panels. For the wallcovering, floorcovering and upholstery market.

OLF SCR T45

Featuring a 45mm arc-shaped flexible blade, the T-45 provides the best performance for both pin-pointed and wide-ranged scrapings. Its blade TB-45 can go all 4 directions. The strong main body is made of glass fiber reinforced PP resin, and also excellent in chemical/acetone resistance. Safety blade cover to avoid injuries while not in use.

Suggested Uses: Floor scraping, cleaning walls, scraping on glass panels.

OLF BSR-200

Sharp edged tool (Scraper) featuring 100mm width blade. No tools required for blade replacement. A flexible blade (sold separately) can also be attached. Handle : length 200mm

Suggested Uses: Floor scraping, wall and glass panel cleaning. Designed for the wallcovering, floorcovering and upholstery market.

OLF BSR-300

Sharp edged tool (Scraper) featuring 100mm width blade. No tools required for blade replacement. A flexible blade (sold separately) can also be attached. Handle : length 300mm

Suggested Uses: Floor scraping, wall and glass panel cleaning. Designed for the wallcovering, floorcovering and upholstery market.

PRECISION CRAFT MODELS

BLADE KB

CTR AK1 - Art Knife

Standard art knife with contoured handle and quick-spin blade change. Package includes 5 spare blades. Guaranteed forever!

Suggested Uses: Ideal for use in arts, graphics, crafts and hobby for both consumer and industrial applications.

BLADE KB, KB4-S, KB4-R

CTR AK4 - Art Knife

Professional precision art knife featuring ComfortGrip handle, quick-spin blade change, perfectly balanced design and an anti-roll device. Designed for precision cutting, this cutter also accommodates a wide variety of OLFA art blades. Package includes 2 precision blades, 1 chisel blade and 1 curved carving blade. Guaranteed forever!

Suggested Uses: Ideal for use in arts, graphics, crafts and hobby for both consumer and industrial applications.

BLADE KB-5

CTR AK-5 - Designer's Art Knife

Designer's Art Knife with a spatula edge. The package includes 30 blades and a needle. The square-shaped spare blade case works as a stand when connected to the blade cover. The accessories needle marks on plastic modeling and peels labels. The come in handy spatula at the top end smoothes adhesive materials and molds a shape in clay.

Suggested Uses: Ideal for designers, hobbyists and craftsmen. Dental technicians choose the AK-5 for making up denture moulds.

Designer's Knife

BLADE MCB-1

CTR MC45 - Mat Cutter

The OLFA Mat Cutter is a uniquely designed tool that takes all the work out of cutting rectangular openings for picture and photograph framing. Edges are smoothly and precisely angled at 45°. Corners are also finished with professional calibre precision. Perfect for cutting picture frame mounts from matting board at 45° oblique angle.

Suggested Uses: Perfect for use on mats used in picture framing for both personal and commercial use.

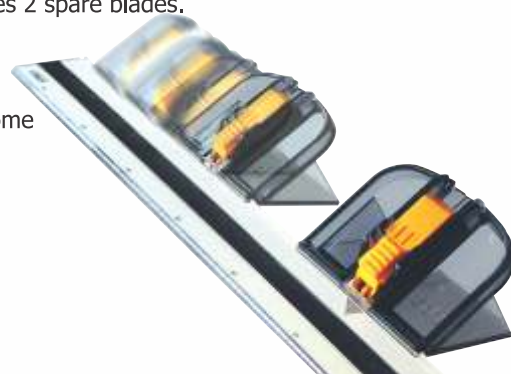

BLADE MCB-1

CTR MC45DX - Mat Cutter with Guide Ruler

The MC45DX comes with a dedicated ruler. The deluxe mat cutter has a special spring-loaded slider, and fits perfectly in the groove on the ruler. The MC45DX is simple to use. Package includes 2 spare blades.

Suggested Uses:
Perfect for use on mats used in picture framing, for both home and commercial use.

PRECISION CRAFT MODELS

CTR PRC2 - Perforation Cutter

Perforation cutter with an 18mm stainless steel blade. Provides easy perforation cutting.

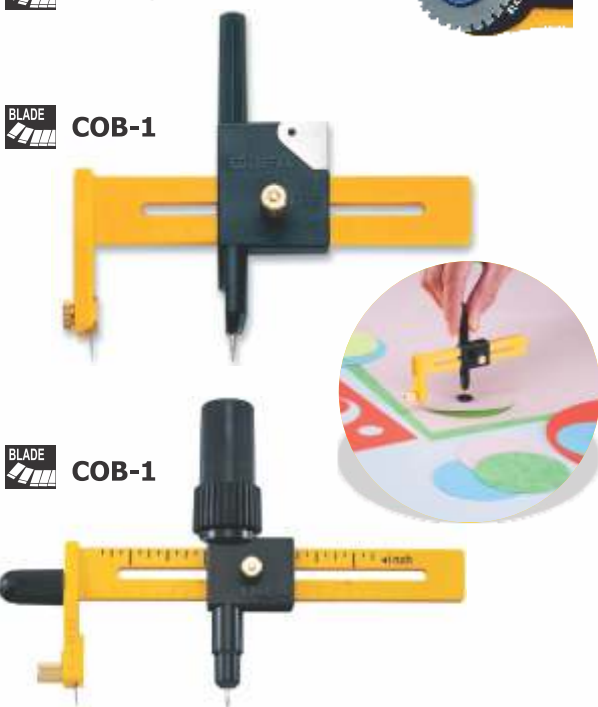

Suggested Uses: Ideal for coupon cutting, card making, ticket-making and scrapbook design, can also be used as a top sheet cutter.

CTR PRC3 - Perforation Cutter

Perforation cutter with a 28mm blade. The larger, deeper serrated edged alloy tool steel blade makes the PRC-3 perfect for frequent use.

Suggested Uses: For ticket-making, **scrap booking**, making fold lines in cardboard and as a top sheet cutter.

CTR CMP1 - Compass Cutter

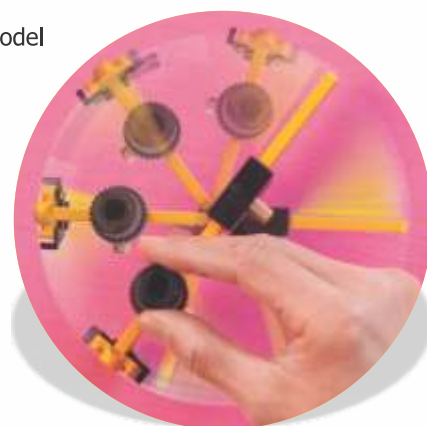

Standard duty circle cutter. Perfect for crafts, model making, photography, scrap booking, memory books and sign making. Extra blades can be stored in the handle. Cuts circles up to 15cm from 1cm in diameter. Guaranteed Forever.

Suggested Uses: Perfect for crafts, model making, photography, scrapbooks, memory books and sign making. Can also be used for cutting paper, films, acetates, cardboard and lighter wood cutting requirements.

CTR CMP1DX - Compass Cutter

Deluxe compass cutter with ratchet system. Cuts circles from 1.6cm to 22cm in diameter. The spike can be covered and the blade can be stored when not in use. Comes with an extra 5 blades in the package.

Suggested Uses: Perfect for crafts, model making, photography, **scrap booking**, memory books and sign making.

TOUCH KNIFE

CTR TK4 - Touch Knife

This pocket sized, multi-purpose knife features a stainless steel blade, blade slide lock and hanging hole to easily slide on to your key chain. Can be used for a number of purposes and fits easily into your pocket, purse, desk drawer or glove compartment. Available in a variety of colours. Can be imprinted with your name or company logo for use in resale or as a premium item. Commonly referred to as "the handiest little knife in the world".

Only available in a 32 piece display card.

ROTARY SEWING & QUILTING

BLADE
RB28

28
mm

CTR RTY1G - 28mm

The smallest of the rotary cutters (28mm), this cutter is great for small scale projects, miniatures and tight corners. Features a blade safety cover and the handle is designed to reduce hand fatigue. The cutter is a rolling razor blade used to cut fabrics into shapes, strips and pieces for sewing, quilting and craft projects. Accommodates right and left handed users.

Suggested Uses: Perfect for general quilting, sewing and craft projects. Can be used in industrial applications.

BLADE
RB45

45
mm

CTR RTY2G - 45mm

Introduced by OLFA in 1979, the 45mm rotary cutter has changed the quilting and sewing industry. The most popular size available, this cutter features a blade safety cover and the handle is designed to reduce hand fatigue. The cutter is a rolling razor blade used to cut fabrics into shapes, strips and pieces for sewing, quilting and craft projects.

Accommodates both right and left handed users.

Suggested Uses: Perfect for general quilting, sewing and craft projects. Can be used in industrial applications.

BLADE
RB60

60
mm

CTR RTY3G - 60mm

The largest OLFA rotary cutter (60mm) is specially designed to cut through multiple layers of fabric and difficult materials. Features include a blade safety cover and the handle is designed to reduce hand fatigue. The cutter is a rolling razor blade used to cut heavy fabrics into shapes, strips and pieces for sewing, quilting and craft projects. Accommodates both right and left handed users. MAT RM CLIPS3

NEW & "Self-healing", OLFA's large mat clip sets are perfect for protecting large areas. The sets are designed so that when put together, the mat grid lines run in a uniform number sequence. The clip set MAT RM CLIPS2 comes with two mats and two clips, and the clip set MAT RM CLIPS3 comes with 3 mats and 4 clips. Inch grid model.

Suggested Uses : Useful in surface and blade protection with rotary cutters

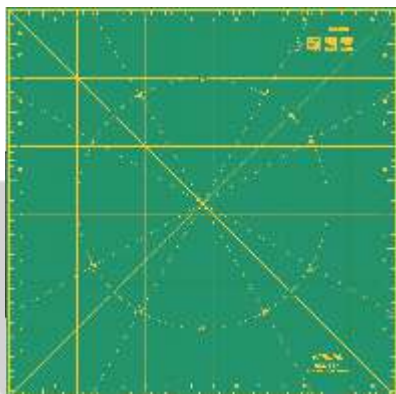

Part No.	Size
MAT RM CLIPS2	1800mm x 600mm x 1.6mm (70" x 23")
MAT RM CLIPS3	1800mm x 900mm x 1.6mm (70" x 35")

MAT RM CLIPS2

ROTATING MATS

360° Rotating Mat for scrap booking, paper crafts, quilt making, modeling and painting. The 17" rotating mat allows crafters to work on larger size projects with ease. Eliminates the need to move your body or your project around. The 3mm thick, 3-layer structure provides superior self-healing feature and very tough cutting base not only for rotary cutters but for other craft cutters and knives as well.

Part No. MAT RM 17S ONA3 **Size** 43cm x 43cm (17" x 17")

- ⊕ Mats must be stored flat
- ⊕ Not suitable for use with steam irons
- ⊕ Always keep these mats away from sunlight and heat
- ⊕ Not suitable for use with OLFA MC-45

How to use OLFA cutters properly.

1. Be sure to use the appropriate cutter and blade according to the material and the thickness being cut. For example, "Do not try to cut plywood with the standard duty cutters."
2. When extending a blade segment, be sure to keep the top of the segment within the blade sheath.
3. Use a good cutting edge. It will help to ensure safety and eliminate damage to your project and assure a crisp clean cut.
4. Use OLFA's safety disposal case or snap-off the dull edge by using pliers.
5. You should have an OLFA mat as your cutting base. OLFA cutting mat will help eliminate damage to the surface of your work area and help the blades last longer.
6. Do not store your mat upright. Store the mat flat and keep it out of direct sunlight.
7. For your safety, protect your eyes with goggles etc.
8. Always be sure to store safely the blade in the handle and keep cutters away from children. It is also important to keep cutters put away in a constant location.

BLADE DISPOSAL CASES

OLFA DC-2 - Disposal Case

The deluxe DC-2 blade disposal case features a metal slot to easily snap off extra heavy-duty HB blade. The lid can be opened and DC-2 can safely hold even 60mm rotary blades. The stored blades can be discarded separately and reused.

Suggested Uses: Safe blade disposal. Good for use at quilt working site.

OLFA DC-4 - Disposal Case

Pocket type blade disposal case. Features a push-open type lid for safety blade snapping.

Suggested Uses: Safe blade disposal.

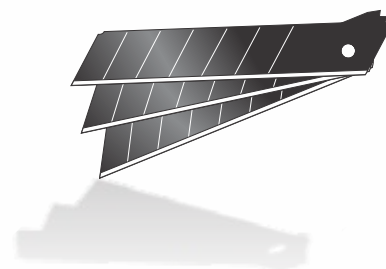

Clip for tool bag or belt

OLFA DC-5 - Disposal Case

Designed for quality-conscious professionals who snap off most frequently. The Blade Disposal Holster DC-5 features easy blade snapping in 2 blade positions and stores used segments while clipping on a tool bag, or a belt. Its compact size is perfect to carry around for one work day. Dispose used segments in bulk at the end of the day!

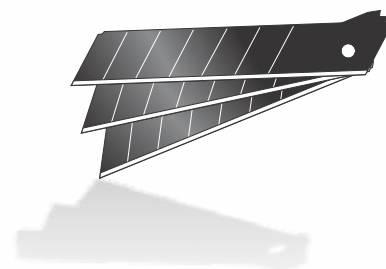

Suggested Uses: Safe blade disposal. Accommodates all the OLFA snap-off blade cutters EXCEPT all the 25mm extra heavy duty models, 18mm heavy duty models: CL, KL, PL-1, SL-1, CMP-2, and 9mm standard-duty models: PA-2, SPC-1, ES-1/green.
